

Chesapeake Cats and Dogs

has been a lifetime haven for homeless cats and dogs for nearly 10 years.
Now it's time for us to GROW!

Chesapeake Cats and Dogs is working to purchase this c.1900 farmhouse and turn it into the **Tree of Life Pet Sanctuary**, which will help us save the lives of many more animals in our community. The **Tree of Life Pet Sanctuary** will eventually allow us to consolidate our efforts at one location.

Our long-term goal is to eventually build a NEW, state-of-the-art home for our furry friends on this 5.5 acre site near Chesapeake College in Wye Mills, Maryland. This new center will include:

medical treatment rooms, training & educational areas for use by the public, comfortable resting areas, and outdoor play spaces for our cats and dogs while they await adoption.

We need your help to grow!
